

Hanex[®] Solid Surfaces

by Hanwha Surfaces

PERFECTION
Delivered.

PERFECTION

Delivered.

We all want beautiful things. And at Hanwha Surfaces, a division of Hanwha L&C, we want to make things beautiful. That means dealing with the concept and delivery of perfection. Since 1952, Hanwha has been innovating materials and designing surfacing solutions with the perfect blend of beauty, elegance and functionality. Today, Hanwha Surfaces delivers the industry's most comprehensive quartz and solid surfacing solutions – with unequalled consistency of color, texture and quality.

In a world where everything moves so fast, Hanwha Surfaces makes the time to sweat the small stuff, pay attention to the details and understand what it takes to deliver something magical, something perfect.

Hanex® Solid Surfaces are crafted from a unique blend of acrylic resins and natural materials, allowing the material to be cut, shaped and formed to fit a range of designs.

Best of all, unlike other surfacing materials, Hanex Solid Surfaces can be repaired and restored to its original condition making the product ideal for kitchen counters, backsplashes, vanities with integrated bowls, door sills, bath and shower surrounds as well as wall cladding and stairs.

Hanex® Solid Surfaces
